DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3, 6, 7, 9-12, and 14-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1-3, 6, 7, 9-12, and 14-16 is the inclusion of the limitation, "a configurable logic operating with the configuration controller for configuring a host interface to operate with an *at least one module interface*" (emphasis added), as recited in claim 1, and as similarly recited in claim 7 (lines 10-13) and claim 12 (lines 10 and 11). The prior art is not directed to a re-configurable interface, and system and method thereof, where a configurable logic operates with the configuration controller for configuring a host interface to operate with an at least one module interface, in a re-configurable interface, system, and method, as claimed.

For example, U.S. Patent No. 6,687,814 to Duppong is directed to a re-configurable interface, and system and method thereof, where a configurable logic operates with the configuration controller (Fig. 1, item 101) for configuring a host interface (Fig. 1, 114) to operate with an electronic circuit (Fig. 1, item 30) — not with an at least one module interface, as claimed.

Therefore, claims 1-3, 6, 7, 9-12, and 14-16 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
